Highlighting inequality since 2024

PROPAGANDA IN SCHOOL

Southeast Polk public high school of Iowa

Southeast Polk Is a high school in central Iowa known for its quality of education, but just how high of quality is this education? And is some of the information taught in Southeast Polk propaganda? From purely the perspective of the history department, we can answer the latter question as, yes! This may be a surprise to some but some of the information taught in history classes in Southeast Polk is false. A lot of this information has to do with the improper explanation of Socialism (or, so how the term is incorrectly used, "Communism") in class. Now, we don't exactly think that the history teachers are dumb or that they are purposely trying to lie to us, but we do believe that it has to be apart of a much bigger propaganda agenda in the U.S. The Red Scare was present almost a century ago, but is it still around today? The answer is yes! Most definitely in fact. Anti-Communist propaganda is ever so present today as it was almost 100 years ago. Now is the time to stand up! Defend the truth! Those in power do not deserve to dictate how to rewrite history. Regardless of your views on Marxism, you too should help stand up for fighting back against propaganda in school. Consider joining the vanguard party! Continue reading on page 2.

100 YEARS SINCE DEATH OF VLADIMIR ILYICH LENIN

Vladimir Ilyich Lenin

2024 Officially marks the 100th anniversary of Vladimir Ilyich Lenin's passing. With the significant event having recently taken place on January 24th 2024, The Che Spark will celebrate this event by writing an article on it and having a page dedicated to the event on the Revolutionary Students Party website (as linked at the top of this issue). Lenin was one of the most significant and influential figures of the twentieth century, however little amounts of individuals actually know about him and his efforts. Some might view Lenin as simply a radical sent by the Germans to get Russia out of WWI, but Lenin was much more than this; One of the greatest Marxist thinkers and writers ever, having contributed to Marxist theory by developing Marxism-Leninism in practice and through his extensive and fantastic writing. Thanks to Lenin, the U.S.S.R. enjoyed equal rights (women, LGBTQ+, race, ect), freedom of speech, democracy, and going from one of the worst economies in the world (tsarist Russia) to one of the best economies in the world (The U.S.S.R.) in just over a decade! Compare this and more to the life style of tsarist Russia prior to the revolution and it's practically night and day. 100 years later after your passing, thanks for your efforts Lenin! Continue reading on page 4.
